

肝臟健康

紐崔萊™乳薊果精華

特強護肝

肝臟負責體內的多項工作，包括排毒、幫助穩定血糖和乳化脂肪、合成多種蛋白質、協助吸收及儲存礦物質和維他命等，是人體最繁忙的器官。

8084 60片

建議用量：每天2次，每次1片，隨飯餐進食更佳。

誰需要它？

我們進食的很多食物、不良的生活習慣及經常處於受污染環境，都會對肝臟造成負擔。此產品針對要保護健康肝功能及煙酒過多的人士。

為何選擇紐崔萊™？

紐崔萊™乳薊果精華含有天然抗氧化物水飛薊素，有效保護肝臟細胞，再配合蒲公英根及薑黃素，提供全面的護肝效果。

每2片紐崔萊™乳薊果精華可提供：
水飛薊賓（提取自乳薊果）----- 130毫克

知多點

乳薊果中的水飛薊素有助阻擋外來的各種毒素，全面提升肝臟的排毒功能，而水飛薊素中的水飛薊賓護肝效能最強。

蒲公英根可以保護肝臟，同時維持消化系統健康。

薑黃素具有抗氧化效能，可減低脂肪細胞被氧化的機會。

Liver Health

Nutrilite™ Milk Thistle

THE MOST POWERFUL SUPPORT TO YOUR LIVER

Liver is the busiest organ in human body, responsible for numerous functions including detoxification, blood sugar stabilization, fat emulsification, protein formation, assisting in absorption and storage of minerals and vitamins.

8084 60 tablets

Suggested usage:

1 tablet each time, 2 times per day, preferably with meals.

NUTRILITE™
紐 崔 萊™

WHO NEEDS IT ?

A lot of food we consume, unhealthy lifestyle and overexposure to pollution will contribute to the workload of liver. This product is specially formulated for those who want to maintain healthy liver functions and people with excessive consumption of cigarettes or alcohol.

WHY NUTRILITE™ ?

Nutrilite™ Milk Thistle contains a natural antioxidant, Silymarin, that helps protect our liver cells. Combined with Dandelion and Turmeric extracts to provide all-round liver protection.

Every 2 tablets of Nutrilite™ Milk Thistle provide:

Silybin 130 mg

TALKING POINTS

Silymarin in milk thistle integrates with the liver cells epicardium. It can block various toxins from the environment, and promote liver functions. Silybin, one of its main components, plays an important role in the maintenance of liver health.

Taraxacin can protect the liver and maintain digestive health.

Turmeric extract can help anti-oxidation and lower the chance of cell oxidation.
